Let's get started!

Thank you so much for the purchase of the ELL Newcomer Digital Centers. I am passionate about helping you find fun and engaging ways to help your ELL students grow in their foundation of English. The voiced over slides, mini lesson videos, and fun activities will be a great way to support ELL students and provide quality independent activities for them. These activities are an extension of the Everything You Need for ELL Newcomers Bundle, which is an in-depth curriculum for teaching newcomers English. You can find more about it by clicking on the picture below.

Here are a few tips you need to know to get started.

1. You need to have a free google account in order to access these files. Please make sure you are signed into the account BEFORE clicking on the links so that the files go to the account you want it to.
2. The audio and video files are stored in YouTube, but will play directly on the slides in Google. If your school blocks YouTube, please reach out to me at inspiringyounglearners@gmail.com, and I will help you find an alternative way.
3. If you are new to digital products, make sure to check out my tutorial and FAQ on the following page for assistance.

To access digital centers

1. Click on the links on the following page. Please read the **directions** included with this product **BEFORE** assigning this activity to your students.
2. When you open the link you will be prompted to make a copy. Once you have created a copy, you can rename the file and save it in your desired location in your Google Drive. You can edit this copy. This file will be shared with your students. **Students will need to have Google Slides on their Ipads to access the slides.**
3. You can share the file you copied with students by creating an assignment in google classrooms. For individual responses, make sure you select the option for all students to get a copy when attaching the file to the Google Classroom assignment. When you want all of the students to respond using the same document, give them editing privileges. It is also possible to share with individual students via the blue SHARE button.

Note: If you haven't created a free Google account, you will need to do that before downloading the product. If students are working on their individual devices, they also need their own account.
